-

VOLUNTEER EXPERIENCE

Missionary Service | LDS Church Korea Daejeon Mission | November 2005 – November 2007

Dear Hiring Manager,

I'm excited to apply for the Web Designer position at your company. With extensive experience in creating visually appealing, user-friendly websites combined with strong skills in HTML, CSS, JavaScript, and UI/UX design, I am confident in my ability to contribute positively to your team's online presence.

In my previous role at HWH Korea as an IT and Web Designer, I successfully designed and managed multiple responsive websites, optimizing user experience and significantly improving engagement through strategic SEO and content integration. My background also includes coordinating closely with marketing teams to ensure seamless integration of branding and digital strategies into the web environment.

My ability to create engaging digital experiences was further honed through my freelance venture, managing a successful tech-focused YouTube channel with over 10K subscribers. This experience sharpened my proficiency in digital content creation and audience engagement—skills that directly translate into effective web design and user interface development.

Currently pursuing Interactive Media Design at Seneca Polytechnic, I'm committed to staying at the forefront of design trends and technologies. I'm eager to bring my creativity, technical proficiency, and passion for user-centered design to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with your team's goals.

Best regards,

Bumyol Lee
